

Social Value

Theme 3: Delivering Net Zero

Eilis Kelly, NI Water
Head of Commercial

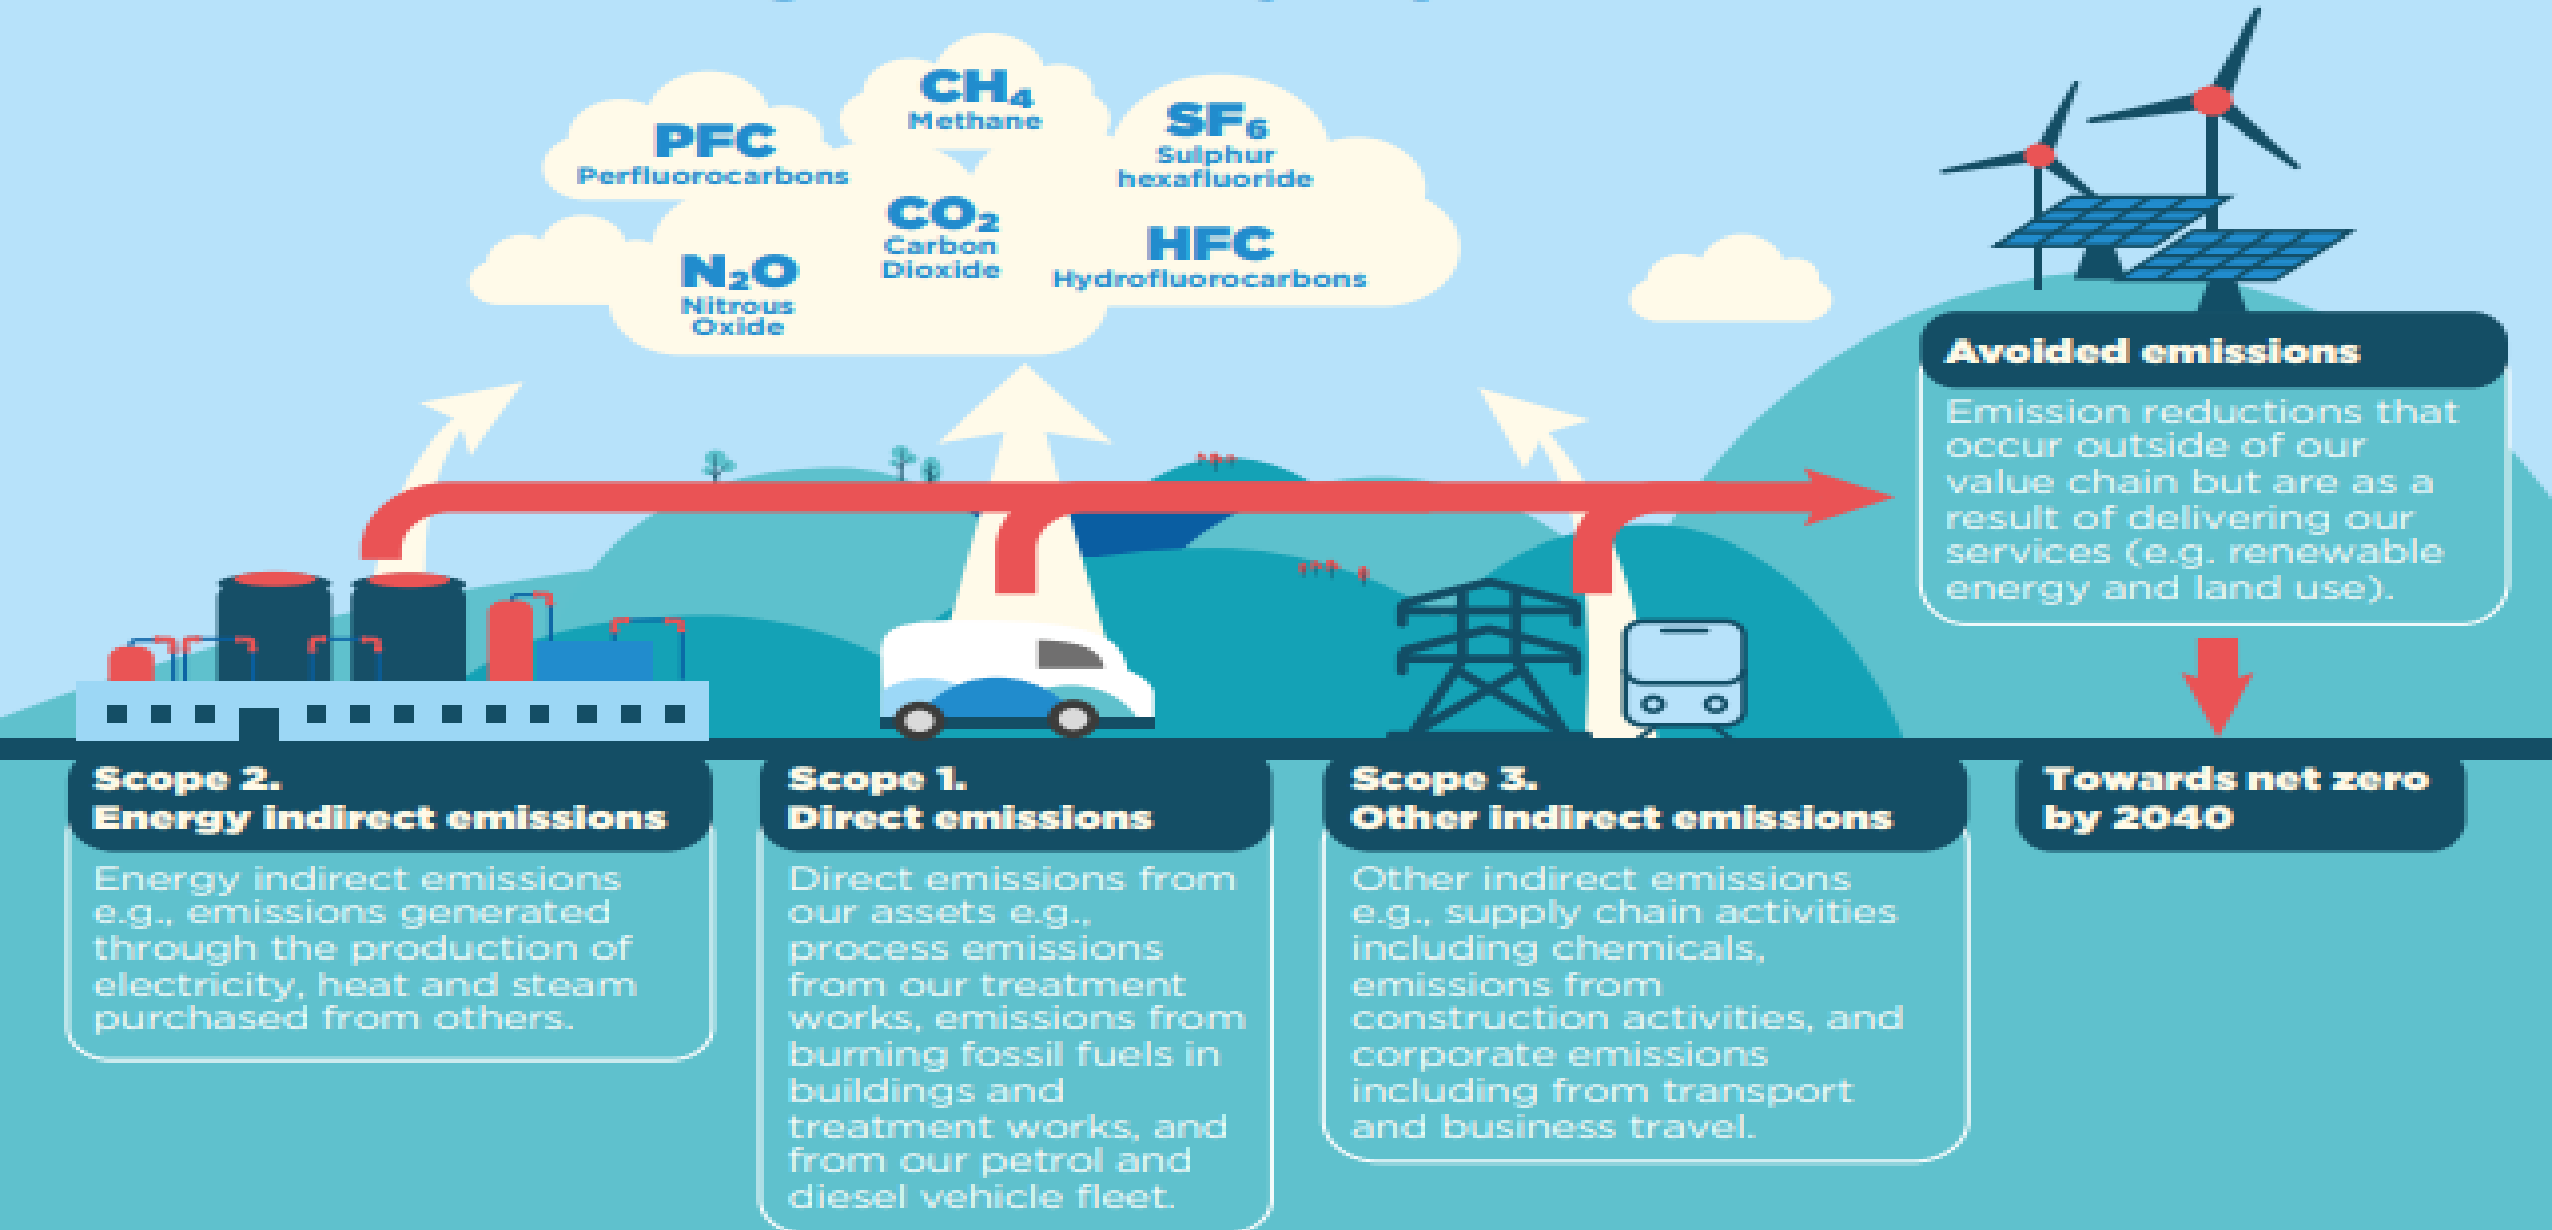

Clear goals to deliver our net zero ambition

- Owning our **own wind farm** is major step to meeting our net zero energy 2030 commitment
- Reaching net zero by 2040 requires an estimated £600m of **new investment**, condensed over 13 years (2027-2040)
- **Wastewater process emissions and land use** are the biggest unknowns for us and the industry; will require innovation and collaboration

Social Value – 10%

PPN 01/21 covers social, environmental and economic objectives with social value being scored using an outcomes-based framework which has four broad themes:

**Increasing Secure
Employment and
Skills**

**Building Ethical
and resilient
supply chains**

**Delivering zero
carbon**

**Promoting
Wellbeing**

Question 1

5%

**Delivering zero
carbon**

Question 2

5%

**Increasing Secure
Employment and
Skills**

**Building Ethical
and resilient
supply chains**

**Promoting
Wellbeing**

Delivering Zero Carbon – 5% of Award Criteria

**Delivering zero
carbon**

**Successful bidders (by the first anniversary of service commencement)
to submit their:**

Environmental impact and carbon footprint baseline; and

Carbon Reduction Plan

Considerations

Are the supply chain ready?

Knowledge / skill set

Bidders asking – is it worth it?

What about SME's?

Cost?
